Submitted on 3 Jan 2023

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

DESCRIPTION	TABULATION	ANALYSIS
<p>Dataset: Database regarding the North Indian MPs since 1952</p> <p>Abstract</p> <p>This database is a unique achievement to which we are happy to give you a free access. It covers the members of the lower house of the Indian parliament (the House of the People or Lok Sabha) who have been elected between the first general elections of 1951-52 and the 14th ones in 2004 in the Hindi-speaking states (Bihar, Chandigarh, Chhattisgarh, Delhi, Haryana, Himachal Pradesh, Jharkhand, Madhya Pradesh, Rajasthan, Uttar Pradesh, Uttarakhand). Many of these states did not exist in 1951-52. We have done as if they did by pooling together the constituencies which were to form them in order to make inter-temporal comparisons possible.</p> <p>For each Lok Sabha MP, this data base provides their name, first name, constituency, state of birth, party, gender, date of birth, religion, caste, level of education and occupation. These data draw from the Election Commission publications or website, Who's who in Lok Sabha and individual interviews with the MPs themselves or party old timers.</p> <p>Such a database can only result from a collective endeavour. It was initiated by Christophe Jaffrelot who collected most of the data year after year from the mid-1990s onwards. Elisabeth Theunissen, Cyril Robin, Virginie Dutoya and Zuheir Desai played a major role successively over the last fifteen years.</p> <p>These data have been analysed in two books dealing with the growing presence of the low caste groups on the Indian political scene: Christophe Jaffrelot, India's silent revolution - The rise of the lower castes in North Indian politics (New York, Columbia University Press, 2003) and Christophe Jaffrelot, "Introduction", in Christophe Jaffrelot and Sanjay Kumar (eds), Rise of the plebeians ? The changing face of Indian legislative assemblies, New Delhi, Routledge, 2009.</p>

Lost?

Finding the appropriate data

A crucial step of a research project based on secondary analysis

but :

- Studies and variables difficult to find
- Metadata not entirely harmonised across waves/studies
- Several **CDSP dissemination platforms** not yet inter-operable

How to improve data discovery and data download?

A new CDSP website

Variable harmonisation

- **Litteral question:** How interested would you say you are in politics? Are you?
- **Variable categories**
 - ✓ 1- Very interested
 - ✓ 2- Quite interested
 - ✓ 3- Hardly interested
 - ✓ 4- Not at all interested

Study	Variable
Image de la science	Int (2001)
Baromètre Politique Français 2006-2007	Q3
Panel électoral français 2002	Xq201
Le baromètre de suivi de l'environnement IFEN-OIP	Q12 (1993), q26 (2000)
Enquête interrégionale des phénomènes politiques	Q29 (1998), q26 (1999), q17 (1994), q11 (1992)
Enquête annuelle ELIPSS	ELIP\$I1 (2013), DN01\$I1(2014)
Pratiques culturelles, Médias et Technologies de l'information (ELIPSS)	EA13\$I1

- **Variable label:** How interested in politics

Data more available and usable

- **Approach to favour data discovery:** data harmonisation across waves and studies
- **Visualisation** of all the waves including the question and download the ones of interest
- **Datamatching upon request**

A new approach including DDI-Lifecycle

- 2014
 - ✓ How to integrate the DDI-Lifecycle specifications in our dissemination practices?
 - Using DDI-Lifecycle tools?
 - Dealing with DDI-Codebook documented data?
- 2015
 - ✓ How about the creation of our metadata system?
 - An exploration of social sciences data centers' portals
 - An analysis of the current situation
 - Decision to build a metadata system
- 2016
 - ✓ Process of building a **metadata database**

Procedures

- ✓ Metadata de-duplication
- ✓ Versioning metadata
- ✓ Integration of concepts

- ✓ A new discovery data portal inspired by the DDI Daghestan workshop 2014 and 2015
- ✓ Definition of the web tools and technology
- ✓ ...

Thank you for your attention !
